CONTAGIOUS BLOOD POISON

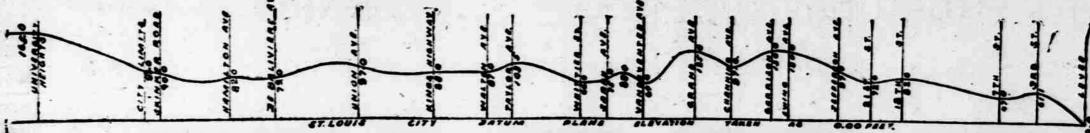

Diseases. It is the most powerful of all human ailments-corrupting every part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insigmificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the Kansa's ten-yard line.

The burset and healthiest blood and in a short time the describing and her.

The line-up was as follows: the purest and healthiest blood, and in a short time the degrading and borrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly ontagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with It, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease

HEN one is considering the location of a HOME there are a lot of things that must be carefully estimated if you wish to build your home where it will continue a home in the future. Did you ever notice how the residence part of a great city grows? If you have lived in St. Louis many years you can follow this little geography lesson with your own experience.

Fine residence property ALWAYS seeks HIGH ground. When all the HIGH ground is taken THEN the hollows fill up, but ALWAYS the FINEST homes and the BEST property is on the HIGH ground. Not many years ago from Fourteenth to Eighteenth

streets was the fashionable residence property. Look at the grand houses, magnificent homes, in their day on Locust street from Fourteenth to Eighteenth streets. NOW what are they? Next the jump was to the hill from Jefferson avenue west. See the fine homes that were built there. Next to Grand avenue, then Taylor. Now King's Highway and Union boulevard hills are the fashionable quarters. The ONLY HILL LEFT in the West End fashionable residence section, the biggest, highest and in every way most desirable hill of all, is the one covered by the beautiful private residence park-

Over two hundred thousand dollars' worth of private residence lots have already been sold, on which beautiful private homes will be erected. Many fine homes have been and are being planned and many of our best families are preparing to move into what for all time to come MUST REMAIN a strictly private, high-class residence park. We have raised the price already on the lots remaining which are being offered at this private sale. The terms NOW are 10% down, convenient monthly payments and no interest charges for two years. We give it as OUR judgment that a lot bought NOW will be worth at least 50% more than the present purchase price BEFORE the end of the two years.
